

Mission Statement

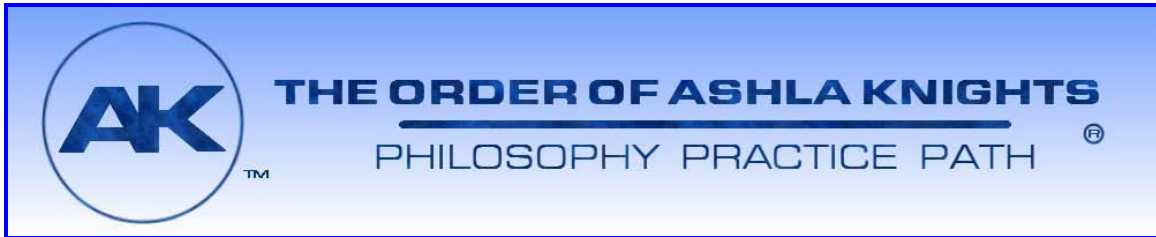

To walk the path and to execute the mission of an Ashla Knight, one's heart must be of the deepest commitment and one's mind of absolute focus. Inspired by the mission of fraternal orders such as the Knights Templar, Free Masons, Knights of Columbus and spiritual groups such as Japanese Samurai, Shoalin and Tibetan Monks; the Order of Ashla Knights is committed to a mission of community service, support and charity. It is a mission designed to inspire growth and betterment of character.

The philosophy and practice of Ashla is a recommended life path; it is a path that is not meant to replace or subvert one's established philosophical ideology and/or spirituality, but complement it. Each day, Knights of the order work hard to walk a moral, virtuous and compassionate path and it is this path that helps them to actualize their missions of Light. Words like leadership, integrity, honor and commitment are but a few that describe the ideals an Ashla Knight lives by. Volunteer work, providing aid and comfort when and where ever they can are fundamental precepts of Knighthood.
